- Workshops

FACILITATE

- W4C Job Corner
(National & International)
- Registry of Experts
- Task Force Owner

Women4Cyber's Journey

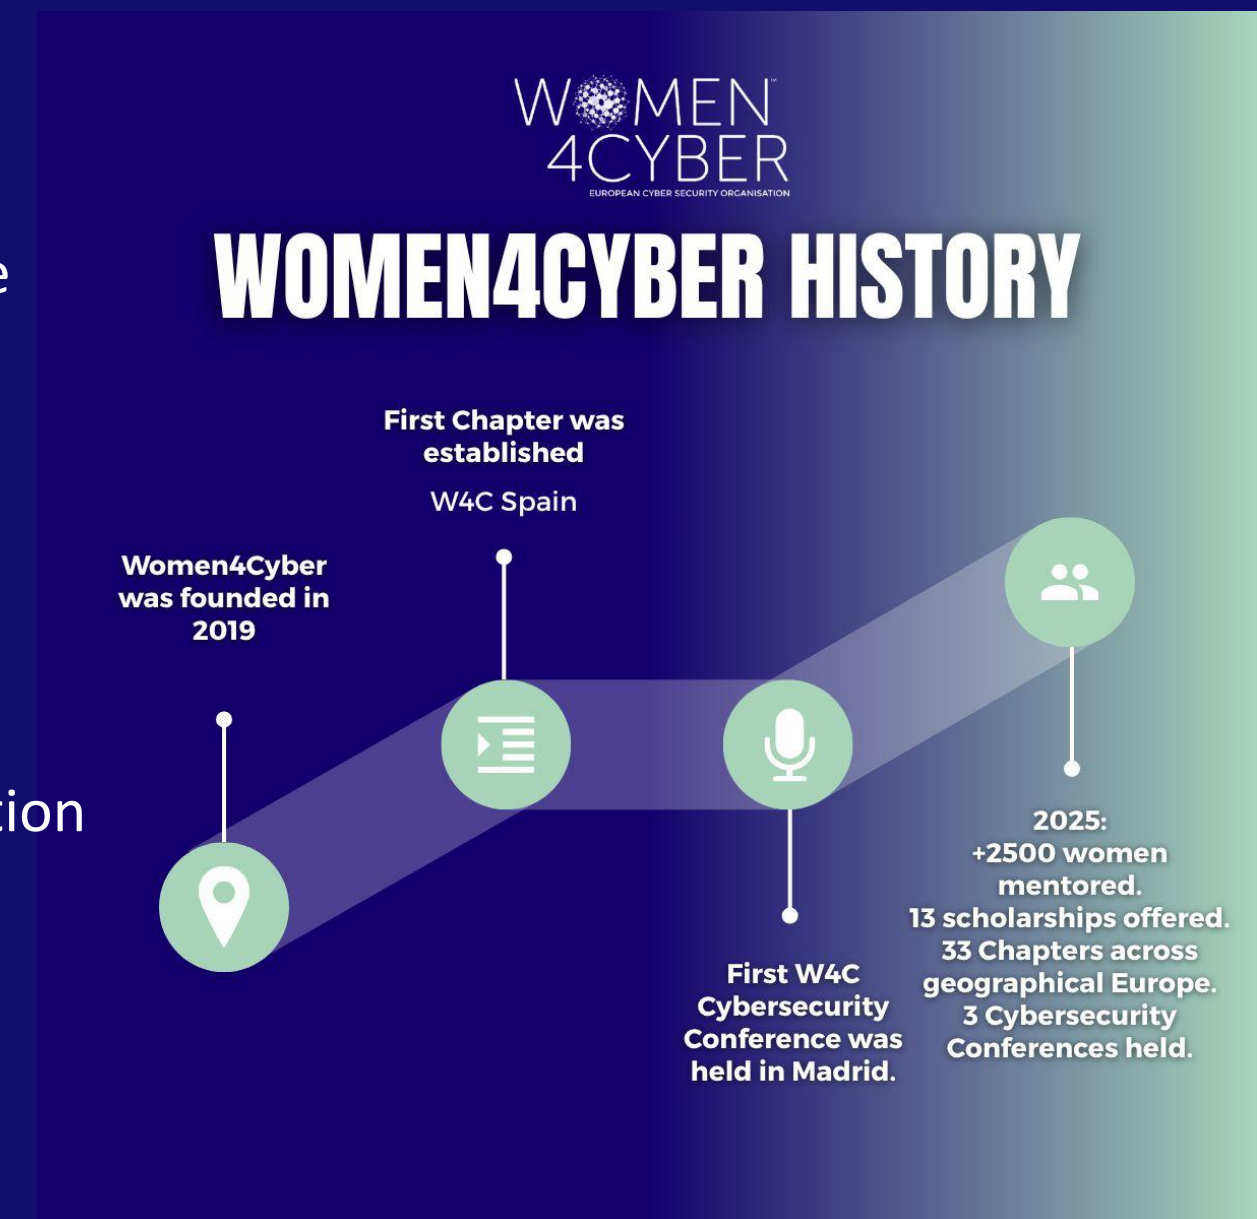

Founded in 2019 with the support of ECSO and the European Commission, Women4Cyber was born in response to the growing cybersecurity skills gap and the low representation of women in the field.

The first national Chapter launched in Spain, paving the way for a network that now spans 33 Chapters across geographical Europe.

Since then, W4C Foundation hosted three successful Cybersecurity Conferences: Madrid, The Hague and Athens.

With the support of the huge community, we have:

- ◆ 2,500+ women mentored
- ◆ 13 scholarships awarded
- ◆ Established more than 13 corporate partnerships
- ◆ Provided accessible webinars and education

Women4Cyber Austria
